

CONSTRUCTION & PROJECT EXECUTION SERVICES CAPABILITY STATEMENT

CONSTRUCTION SOLUTIONS FOR NUCLEAR, INDUSTRIAL, AND GOVERNMENT FACILITIES

OUR CONSTRUCTION SERVICES

DESIGN-BUILD CONSTRUCTION

Integrated EPC
delivery from
concept through
completion

UTILITY UPGRADES

Electrical, mechanical,
and process utilities

PROCESS FACILITIES

Specialized facilities
for nuclear and
industrial operations

**FACILITY
RENOVATIONS**
Modernization and
upgrades of existing
infrastructure

**REMEDIATION
PROJECTS**
Environmental and
nuclear remediation
services

**INFRASTRUCTURE
MODERNIZATION**
Site development
and infrastructure
improvements

**20+ YEARS
EXPERIENCE**

**500+
PROFESSIONALS**

**6 REGIONAL
OFFICES**

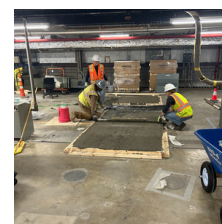

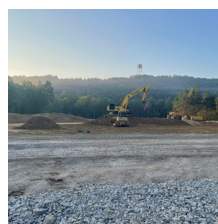

**\$275M+
REVENUE**

CONSTRUCTION PROJECT EXPERIENCE

300 METRIC TON DEPLETED URANIUM RECYCLING PROJECT

Scope includes full design and construction of process and support buildings, site development, utilities and piping installation, equipment foundations, and commissioning of process systems.

 \$1.6B
 Oct. 2025 - Present

20 METRIC TON DEPLETED URANIUM RECYCLING PROJECT

Prime contractor providing construction, project management, and procurement services. Scope includes construction of a new building with the necessary infrastructure and equipment to support the new 20 Metric Ton process to convert oxide to metal.

 Jun. 2025 - Jul. 2026

9225-03 SMF UTILITY UPGRADES

Prime contractor tasked with performing facility, utility upgrades, and GFE install. Utility upgrades include demolition and installation of Civil, Architectural, Structural, Fire Protection, HVAC, Piping, and Electrical (including overhead power) systems.

 \$24M
 May 2025 - Present

DOMESTIC URANIUM ENRICHMENT CENTRIFUGE EXPERIMENT

Project scope includes a 5,000-square-foot building and a 66,968-square-foot office and test facility, that features 14,600 square feet and accommodates 70+ office space. The scope also includes site development, structural and architectural construction, process utilities, mechanical and electrical systems, and commissioning of centrifuge assembly and testing areas.

 \$36.6M
 Jan. 2025 - Dec. 2025

Y808 DESIGN-BUILD FABRIC STRUCTURE & TRAILER COMPLEX PROJECT

Scope includes the design, material procurement, fabrication, and construction of fabric membrane structures, as well as the delivery and installation of the temporary trailer complex.

 Aug. 2024 - Present

4500N BUILDING LABORATORY RENOVATION

Prime contractor tasked with the renovation of 6 laboratories in the 4500N building, which will be used for future non-proliferation training. Upgrades include HVAC, PAAA Exhaust System, Electrical, Piping, Fire Protection, Building Controls, and Architectural and Structural improvements. Installations include HEPA Filter Housings, Exhaust Fans, Exhaust Stacks, Gloveboxes, and Fume Hoods.

 \$4.3M
 May 2024 - May 2026
